## **2. English Language**

The English Department adopts STELLAR (STrategies for English Language Learning And Reading) to engage students in the learning of English. They learn critical life skills of listening, speaking, reading and writing in English. To promote the love for reading, Extensive Reading programme was initiated to provide a platform for students to articulate their viewpoints during class discussion.

## **3. Mother Tongue Languages**

During Mother Tongue Language lessons, opportunities for listening and speaking are created to encourage students to express themselves. Through active participation in classroom activities, students will find learning more meaningful and develop a strong foundation in oral communication. Parents and students can also access learning materials via Student Learning Space <https://vle.learning.moe.edu.sg/> to enhance students' learning.

## **4. Mathematics**

The key focus for lower primary Mathematics is to develop students' numeracy skills so as to provide a strong foundation in various Mathematical concepts. Students will be able to apply the numeracy skills in their daily life and other related disciplines. Our Mathematics programme includes the following:

- Mathematics journal to allow students to show their understanding of Mathematical concepts through writing and drawing.
- The use of various concrete objects and measuring instruments to learn a skill or a Mathematical concept through performance tasks.
- Game-based lessons to allow students to develop critical thinking skills through games.

All P1 students will be given a subscription to Koobits online resources. More details will be given at a later date.

## **5. P1 Parents Engagement**

There will be a curriculum briefing for parents/guardians on 23 February 2024. The Heads of Department of the various subjects will share with you in greater detail the expectations of the subject and the assessment plan. More details will be provided via PG nearer to the date.

## **6. Holistic Assessment**

With effect from 2019 in line with the recommendations from MOE, weighted assessments for Primary 1 and Primary 2 students have been removed to focus more on building students' confidence and intrinsic motivation to learn at an early stage. The aim is to achieve a better balance between the acquisition of knowledge and the development of skills and inculcation of values, especially at P1 and P2 levels.

The progress of students' learning will be captured through different assessment modes such as performance tasks and written assignments. Your child/ward will receive the Holistic Development Profile at the end of each semester.

Please take note of the Learning Outcomes (LO) for the various subjects in Semester 1. There will be 3 levels of qualitative descriptors to report students' learning progress for each learning outcome in the Holistic Development Profile (HDP).

Qualitative Descriptors	Remarks
Competent	Able to understand and apply learning almost all the time
Developing	Able to understand and apply learning some of the time
Beginning	Able to understand and apply learning with support

## 7. Edusave Merit Bursary

In line with the removal of all weighted assessments for Primary 1 and Primary 2 students, MOE has revised the academic criteria for Edusave Merit Bursary (EMB) and Edusave Good Progress Award (GPA) at the lower primary levels. P1 Singaporean students in Government and Government-aided schools can be nominated by teachers for EMB if they consistently demonstrate positive learning dispositions such as diligence, curiosity, collaboration and enthusiasm, and good conduct in the year.

For more details, please visit:

<https://www.moe.gov.sg/financial-matters/awards-scholarships/edusave-awards>

## 8. Character and Citizenship Education (CCE)

School-Home Partnership in CCE is important as parents are the first caregivers in developing good character in the children. For CCE to be effective, what is taught in school should be reinforced at home. CCE lessons feature a segment on “Family Time” which provides suggestions for activities that strengthen the bonds between parents and their children. Parents are strongly encouraged to use “A.B.C” to engage their children during family time, i.e. Active Dialogue, Bonding Time and Continuous Feedback. With the CCE family time activities, let us work closely together on this meaningful journey of inculcating values in our children.

## 9. FTGP (Form Teacher Guidance Period)

FTGP is conducted 30 minutes a week within curriculum time. Through the FTGP, Form Teachers get to engage in quality interactions with their students and help them strengthen their social and emotional competencies. During FTGP lessons, there are play activities between the Form Teachers and students to enhance bonding as well as the teaching of social and emotional learning skills, which includes handling challenging situations and making responsible decisions.

## **10. Programme for Active Learning (PAL)**

PAL is part of the curriculum and offered during timetabled time. In PAL, Primary 1 and 2 students are exposed to varied and fun learning experiences in four domains: Sports and Games, Outdoor Education, Performing Arts and Visual Arts. Students learn socio-emotional competencies such as respecting others and responsible decision making. PAL also nurtures confidence, curiosity and cooperation skills in students. These are the modules the students will learn in Primary 1:

- Sports and Games
- Music in Movement
- Outdoor Experiential Learning and Discovery

## **11. Silent Reading**

Please ensure that your child/ward brings an English Language storybook in odd weeks and a Mother Tongue Language in even weeks for silent reading.

## **12. School-Home Partnership**

### **a) Dissemination of Announcements and Consent Forms via Parents Gateway (PG)**

Developed by the Ministry of Education and GovTech, PG is a one-stop portal that strengthens school-home partnership to support our children in their education journey. All school announcements and consent forms are disseminated via the PG. We strongly encourage all parents/guardians to read and respond to the notifications in PG.

### **b) Communication with Teachers**

We encourage parents/guardians to communicate with your child's/ward's teachers via the Student Handbook. The handbook is a means of checking your child's/ward's daily assignments and instructions given by teachers.

Parents/guardians can also communicate with teachers' via email, school's email ([naps@moe.edu.sg](mailto:naps@moe.edu.sg)) or through the school General Office (Mondays to Fridays, 8.00 a.m. to 5.00 p.m.) at 6441 8677.

Our teachers are not obliged to share their personal mobile numbers for communication with parents/guardians. Please use the school's main mode of communication stated above. We seek your understanding to respect our teacher's time by contacting them only during school hours (7.30 a.m. to 5.00 p.m.) and that they may not be able to respond to you immediately as they might be in class. Please also allow the teachers at least 3 working days to respond to your feedback via email or phone.

### **c) Establishing a Positive School-Home Partnership**

Please visit our school website and official Ngee Ann Primary Facebook for updates on school life in Ngee Ann. We will be uploading photos of school activities/events and share our children's precious moments with you.

Mutual respect and trust form the strong foundation for positive engagement between schools and parents.

In adherence to PDPA guidelines, Whatsapp chat groups will not be created by the school. In the use of social media platforms such as Whatsapp, Facebook or Instagram, please be mindful of comments made that might incite unnecessary anxiety and/or unfounded speculations towards others.

If an incident occurs, allow the teacher/school time to verify the facts before engaging you, so that the incident involving your child/ward can be resolved in a fair and objective manner. When disagreements occur, stay open and find out more from the school. Allow the teacher the opportunity to establish the facts and work with you to resolve disagreements amicably.

Our children succeed when schools and parents/guardians work hand in hand to support them in learning self-management skills, taking responsibility and building resilience. We look forward to building a strong and positive School-Home Partnership with you.

Thank you.

Yours faithfully,

---

Ms Manjusri  
Level Manager (Primary 1)
