Mastering the ABCs or well and good but having over 25 years of children enter primary school through the doors. The Ministry of Education observes that these six soft skills are even more essential in preparing students for primary school.

Entering Primary 1 can be a big step for a child — and the parents. While parents often consider

# Relating Well to Others

Build your child's interpersonal skills by:

**01**

**Modelling the use of friendly and polite phrases**

"May I please..."

"Hi! My name is...What is your name?"

"Could you help me with..."

**02**

**Providing opportunities for your child to share and take turns during playtime with other children**

# Developing Good Habits

Routines help your child build confidence and learn to manage things by themselves.

Take their temperature using a thermometer

Practise consistent pre-bedtime routines and have at least 9 hours of sleep

Wash their hands

Guide your child to do the following independently:

Dress themselves

Pack their bag and check for materials

Buy food at the canteen

Make healthy food choices

Knowing when and how to ask for

# Nurturing Positive Attitudes

**Developing the right learning attitude will help your child learn better. You can encourage your child to:**

Ask questions about their experiences and their observations on the world around them

Reflect on learning experiences, learn from mistakes and try ways to do something better

Persevere even when faced with challenges

Our children do best when schools and parents work hand in hand to support them.
